A FULL SET OF SPARE PARTS SUPPLIED

Lindhaus supplies a whole series of spare parts to guarantee at least 1 year of service without additional expenses.

TECNICAL SPECIFICATIONS	Robot Robby
Functions	Sweep, vacuum, mop
Cleaning way	Spot cleaning, small space cleaning, automatic cleaning
Cleaning system	Brushes, roller, suction
Dust bin capacity (lt.)	0.5
Water tank capacity (lt.)	0.4
Water level control	Electronic
Working time	120 min.
Automatic recharge	yes
Anti fall sensors	yes
Climbing height	1.5cm
Vacuum motor Suction mm/H_2O (inch/H_2O)	140 (5.5)
Vacuum motor Air flow lt./sec. (CFM)	11 (23)
Brushes + roller motors	2+1
Traction wheels motor	2
Max power (W)	28
Noise level db(A)	54
3 levels filtration system	Hepa filter
Safety devices	Anti-fall, Anti collision, Anti-winding, Mechanical and electronical collision protection,10 sets of infrared detection Safety LED flashing lights
Li-ion battery	14.4 V - 2.6 Ah
Battery charger	100-240 V; 50/60 hz; 0.5 A
Remote control	Standard
Consumables included	1roller, 2 brushes, 1 hepa filter+mtr. prot., 1 Microfiber cloth
Dimensions D x H mm (in)	325 x 80 (12.8 x 3.1)
Weight kg. (lb)	3 (6.6)
Certifications	3C, CE, ROHS (Made in P.R.C.)

LINDHAUS®
QUALITY CLEANING EQUIPMENT

MULTIFUNCTION ROBOT

Robby

ALWAYS TWO STEPS AHEAD

Robby

Lindhaus Robby, the intelligent robot that sweeps, sucks and mops the floors' surfaces

STRENGTHS

- Intelligent system to avoid obstacles
- For floors and carpets
- Mechanical collection + suction
- Cleaning corners and along the wall
- Overcomes obstacles up to 1.5 cm and doesn't fall down the stairs
- 3-level filtration system with Hepa filter
- 6 motors (suction, roller, 2 brushes, 2 wheels)
- Safety LED flashing lights
- Automatic water distribution control
- Very low profile: only 8 cm
- Ultra-silent: only 54 db(A)

IT GOES EVERYWHERE

Robby is 8 cm tall only and passes easily under the beds, low furniture and suspended sanitary ware both when it sweeps, sucks and when it mops.
Its long side bristles perfectly clean corners and also along the wall.

LOW BODY-HEIGHT

LI-ION BATTERY

IT EASILY OVERTAKES OBSTACLES

Robby climbs over obstacles up to 1.5 cm and slight slopes. It easily goes from floors to carpets and thanks to its anti-falls sensors, it doesn't fall down the stairs.

SWEEPS, VACUUMS AND MOPS

3-STAGE FILTRATION SYSTEM

LOW NOISE LEVEL

10 SAFETY SENSORS

REMOTE CONTROL

All the functions are selected from the remote control, the switching ON and OFF times are programmed and, thanks to the quick choice menu, different paths and types of cleaning can be done with a simple click.

CLEANING SYSTEM MECHANICAL + SUCTION

The side brushes collect dust and debris by conveying them to the center where the roller collects in the dust bin. Above the dust bin there are 3 filters with final Hepa filter. The digital motor sucks after the Hepa filter. In this way the machine sweeps, sucks and retains dust.

CHARGING STATION

When Robby has a low battery with a residual of 20%, it automatically turns off the suction motor and the roller/ brush motor and returns to the charging station.
When fully loaded, it starts working for another 120 min.

MAINTENANCE WITHOUT TOOLS

Emptying the dust bin is simple and requires no tools, as well as access to all filters.
The removal of the roller cover, the roller itself and the side brushes do not require tools.
The water tank releases like the dust bin. Emptying and filling are instinctive.

MOPPING WITH MICROFIBER

Robby is also a comfortable floor mop with a microfiber cloth. The 0.4 lt water tank makes it possible to mop about 50 m^2 of floor. The water dosing is electronically controlled and uniform over the entire surface of the cloth. Suitable for non-delicate floors: ceramic and linoleum.

LINDHAUS NEUTROLUX CLEANER

Lindhaus Neutrolux cleaner concentrated at 1% is based on perfumed neutral soap and nano spheres of silicon, it allows you to sanitize floors of any type including marble and wood, creating a shiny effect without making them slippery.
